CASSETTE FOLDING ARM AWNINGS

Toldo a brazo con cofre

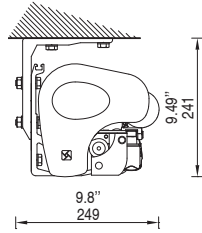

EN 2040 is a folding arm awning on a 1,57" galvanized and painted steel square bar with half cassette and stainless chain arms. This model includes a patented tipping system which allows to adjust the awning's inclination without acting on the cassette itself.

ES 2040 es un toldo con brazos extensibles sobre barra cuadrada 40mm en acero galvanizado y lacado con cofre opcional y con brazos con cadena acero inox. Este modelo viene con un soporte brazo basculante patentado que permite regular el toldo sin tener que inclinar el cofre.
